## TO INSPIRE IS OUR MISSION

PERFECT8 Technologies are dedicated to producing ultra exclusive design loudspeakers and audio components for the real connoisseur. Every detail of a PERFECT8 loudspeaker serves one ultimate purpose - perfect musical reproduction. Fill your senses with the purity of the music exactly the way it sounded at the time of recording.

## PERFECTION BY DESIGN

There is a passion behind every PERFECT8 product! Timeless design, superior craftsmanship, and outstanding sound quality - all unsurpassed milestones of excellence.

## THE AMP 1000 SUBWOOFER EDITION

Feel the very ground shake as if an earthquake has struck, feel your every sense filled with the deep sounds of an oceanic adventure, have your guts pounded by powerful explosions like nothing you have ever felt before.

When envisioning THE AMP 1000 SUBWOOFER EDITION, PERFECT8 single mindedly pursued the idea of bringing life, depth, and texture to bass and subsonics unlike anything previously experienced. When used with our primary loudspeaker THE FORCE, the effect is groundshaking, profound, and seductive.

Immensely powerful, defying its small appearance, THE AMP 1000 SUBWOOFER EDITION was designed to seamlessly integrate with THE FORCE subwoofer and/or THE POINT.

The secret of great sounding amplifiers lies far from the conventional ideas of power, frequency response and total harmonic distortion specifications. Instead, it is the absence of the extremely unmusical percussive crossover distortion in combination with almost limitless power resources of 1000W into virtually any speaker load that makes THE AMP 1000 SUBWOOFER EDITION gracefully meet any challenge in subwoofer amplification.

The latest and most advanced full-fledged Class D technology in combination with SSG vibration damping enables unique performance in a compact and sublime package.

### SPECIFICATIONS:

Long Term Power:	1000W @ 0.01% THD+N, 1KHz into 4 ohms (500W into 8)
Peak current:	> 50A
Dynamic range:	119dB
THD+N:	< 0.007%, 1W / 1kHz
IMD:	0.002 %, CCIF Measurement 19KHz/20kHz
Bandwidth:	5.3Hz – 38kHz (into 8 ohms)
Total efficiency:	83% (500W, 8 ohms)
Size (WxHxD):	260x90x260 mm
Weight (approx):	5.5 kg/channel
