

PERFECT8 TECHNOLOGIES TEAMS WITH BRIDGE AUDIO LABORATORY TO PREMIER 'THE FORCE' LOUDSPEAKER TO THE US MARKET

INTRODUCES PERFECT8'S GROUNDBREAKING NEW TECHNOLOGY – 'SUPER SILENT GLASS' BALABO, WINNER OF 'BEST SOUND' AT CES 2007

LAS VEGAS (CES, The Venetian, Room 30-129) PERFECT8 Technologies AB of Sweden, www.perfect8.com today announced it has teamed up with Bridge Audio Laboratory (BALabo), www.BALabo.com to introduce its flagship loudspeaker, The Force, to the United States and its general availability to worldwide markets. The Force incorporates extraordinary technologies including the proprietary 'Super Silent Glass', an ideal material for the construction of the speaker baffle and frameworks because of its unique properties of stiffness, damping, and mass. The overall aesthetic of The Force with its gleaming gold and glass towers, presents a stunning work of sculptural art that performs at the highest levels of musical reproduction.

BALabo also introduces the availability of its 'Absolute Zero' signal grounding cable for use between its BC-I MK-2 Control amplifier and BP-I MK-2 Power amplifier. The Absolute Zero greatly improves performance by tying together the signal ground planes of both components, reducing the signal noise floor and revealing additional low level musical information.

BALabo is an innovative designer and manufacturer of audio components for high end, 2-channel super-systems. The company prides itself on new design concepts that offer the ultimate in audio performance, tactile luxury and a sculpted, highly refined visual aesthetic. The company is dedicated to maintaining total quality control in all aspects of design and manufacture. Distribution for BALabo is built through a select network of top-tier importers and dealers that carry complementary lines and offer an outstanding demonstration environment.

PERFECT8 Technologies is a Swedish provider for high-end ribbon and dynamic loudspeakers and subwoofers. Backed by over 25 years of research and more than 5 years of dedicated development, PERFECT8 Technologies was founded in 2005 with the primary mission of producing the most exclusive and best sounding loudspeaker systems in the world!

Not to be confused with chassis grounding techniques, BALabo's unique signal grounding methodology is unique in the industry.

"We are very excited about CES 2008 and this fabulous opportunity to present our flagship loudspeaker The Force to the American public.

Do not make the mistake of comparing PERFECT8 to other "design loudspeakers". Our groundbreaking and innovative technology creates a sound of unmatched quality and beauty like nothing you have ever experienced. PERFECT8 will capture your heart and soul!"

Jonas Rantilä - CEO PERFECT8 Technologies

Pricing for The Force loudspeaker from PERFECT8 with 2 towers and 4 outbound subwoofers is \$295,000.

Pricing for the BALabo Absolute Zero signal grounding cable starts at \$2,000 USD for a 2 meter cable with a 7.5 meter run priced at \$5,000 USD.
