World Première! PERFECT8 Technologies to unveil the ultra exclusive Hifi loudspeaker The Force at the Millionair Fair, Cannes, France.

STOCKHOLM, Sweden – August 2006: PERFECT8 Technologies, provider of high-end ribbon and dynamic loudspeakers and subwoofers, exhibits ultra exclusive HIFI loudspeakers for the first time at The Millionair Fair, Cannes, France, 1-3 September, including the top-of-the-line model **The Force**.

The Millionaire Fair Cannes, France, 1-3 September, will be the world premiere for the ultra high performance **The Force** glass loudspeaker. **The Force** represents a true paradigm shift in loudspeaker design, featuring a 2 metre tall, all glass line driver in an open baffle design without the traditional box. Scientists have long been aware that the open baffle principle would result in superior sound reproduction. Unfortunately, these principles have turned out to be impossible to implement in practice – prior to **The Force**!

Free from any factitious design gimmicks, **The Force** demonstrates the fundamental attractiveness of true form that follows function and spirit. The ultra-smooth and scratch-resistant glass surfaces harmonizing with 24K gold plating represent the pinnacle of loudspeaker evolution. PERFECT8 - perfection by design!

"This is very exciting times for PERFECT8 Technologies. The Millionaire Fair is a unique opportunity for us to meet with our target customer base and demonstrate how truly amazing our products are!"

Jonas Rantilä, CEO PERFECT8 Technologies
